Certified Healthcare Facility Manager (CHFM)

Ref: 3254217_160764 **Date:** 14 – 18 December 2026 **Location:** London (UK) **Fees:** 6100 GBP

Introduction

This course is specifically designed for healthcare professionals seeking to enhance their knowledge and skills in healthcare facilities management. Focusing on the most modern and advanced practices, the course will provide you with a comprehensive understanding of the responsibilities and challenges healthcare facility managers face in ensuring optimal patient care. Whether you're an experienced professional or new to the field, this course will equip you with the necessary tools and techniques to effectively manage healthcare facilities and maintain high standards of care. By the end of this course, you will be on your way to becoming a Certified Healthcare Facilities Manager, gaining the expertise to oversee both the operations and the infrastructure of these crucial facilities.

Course Objectives

- Gain a thorough understanding of the role and responsibilities of a healthcare facilities manager.
- Learn advanced strategies for managing healthcare facilities in a rapidly evolving healthcare landscape.
- Understand the regulatory and compliance requirements specific to healthcare facility management.
- Explore the latest technologies and innovations in healthcare facility management.
- Develop skills in budgeting, financial management, and resource allocation in healthcare facilities.
- Understand the importance of patient safety and infection control in healthcare facility management.
- Learn strategies for optimizing facility operations and maintenance in healthcare settings.
- Enhance leadership and communication skills for effective collaboration with healthcare professionals and stakeholders.
- Network and collaborate with other professionals in the field of healthcare facility management.
- Develop a comprehensive action plan for implementing best practices in healthcare facility management.
