The Role of Internal Audit in Government Governance

Ref: 3254732_175969 **Date:** 12 – 16 April 2027 **Location:** London (UK) **Fees:** 5400 GBP

Introduction

Internal audit plays a critical role in enhancing governance within government institutions by contributing to improved institutional performance, ensuring compliance with regulations, and promoting transparency and accountability. This course is designed to equip participants with the knowledge and skills necessary to understand the relationship between internal audit and governance, focusing on applying best practices to achieve institutional objectives effectively and efficiently. Participants will gain the tools to elevate their internal audit processes and promote good government governance practices.

Through practical training and real-world case studies, participants will learn how to enhance government governance, ensuring transparency and accountability in public sector institutions by leveraging modern internal auditing techniques.

Course Objectives

By the end of this course, participants will be able to:

- Understand the concept of governance in government institutions and its importance in the public sector.
- Recognize the role of internal audit in promoting transparency and accountability.
- Evaluate internal control systems and risk management in government institutions.
- Develop skills in internal audit reporting and crafting actionable recommendations.
- Apply best practices in internal audit to enhance government performance efficiency.

Course Outlines
