A photograph of chess pieces on a checkered board. In the foreground, a large gold king piece stands prominently on a dark square. To its left, a silver pawn piece is on a light square. Further back, another silver pawn piece is visible on a light square. The background features a series of concentric, light gray circles that create a sense of depth and focus on the king piece.

Internal Audit on Revenue, Expenses, and Expenditures in the Public Sector

Ref: 3254748_176448 **Date:** 5 – 9 April 2027 **Location:** Bordeaux (France) **Fees:** 5200 GBP

Introduction

Revenue, expenses, and expenditures are critical elements for ensuring financial sustainability and efficient resource management in government institutions. To maintain transparency, efficiency, and compliance with government standards and regulations, internal auditing of these financial operations is essential. Internal auditing helps detect errors, prevent fraud, and improve public financial management processes.

This course is specifically designed for internal auditors in the public sector, equipping them with the necessary skills to analyze financial flows, assess risks, and ensure compliance to ensure sound financial resource management.

Course Objectives

By the end of this course, participants will be able to:

- Understand the fundamental principles of auditing revenue, expenses, and expenditures in government institutions.
- Apply internal audit methodologies to ensure the accuracy and integrity of financial transactions.
- Analyze financial risks associated with revenue and expenses and develop effective control strategies.
- Enhance compliance with government financial policies and international audit standards.
- Improve the efficiency of internal audit reports and provide actionable recommendations.
- Develop skills in financial performance evaluation and data-driven decision-making.
