Insurance Claims Management Training Program

1 – 5 February 2027
Prague (Czech Republic)

Insurance Claims Management Training Program

Ref: 3255250_191716 **Date:** 1 – 5 February 2027 **Location:** Prague (Czech Republic) **Fees:** 5200 GBP

Introduction

Claims management lies at the core of the insurance industry, shaping customer trust, regulatory compliance, and overall operational efficiency. Effective handling of insurance claims requires a systematic approach that blends technical expertise, investigative methods, customer care, and awareness of legal frameworks.

This one-week training program equips participants with the skills and tools to manage claims across various lines of business, including motor, medical, property, and liability. Through case studies, practical exercises, and global best practices, participants will gain the ability to detect fraud, resolve disputes, ensure compliance, and deliver a superior customer experience.

Course Objectives

By the end of this program, participants will be able to:

- Understand the full claims lifecycle, from notification to settlement.
- Analyze and process motor, medical, property, and liability claims.
- Apply techniques for claim verification, loss assessment, and dispute resolution.
- Detect and address fraudulent claims using investigative approaches.
- Strengthen communication and negotiation skills with customers and stakeholders.
- Ensure compliance with insurance regulations and governance requirements.
- Implement strategies for claims efficiency and performance improvement.

Course Outlines
