The International Professional Practices Framework (IPPF)

Ref: 3255315_192431 **Date:** 20 – 24 December 2026 **Location:** Istanbul (Turkey) **Fees:** 4200 GBP

Introduction

The International Professional Practices Framework IPPF serves as the global foundation for the internal audit profession. It establishes the guiding principles, mandatory standards, and recommended practices that ensure consistency, transparency, and quality in internal auditing worldwide.

This course provides participants with a deep understanding of the IPPF, its components, and its role in enhancing the professionalism and credibility of internal audit functions.

Through a combination of theory, real-world examples, and case studies, participants will learn how to apply the IPPF in their daily work to strengthen governance, improve risk management, and ensure effective control environments.

By the end of the program, participants will have the practical knowledge needed to align their internal audit activities with global best practices and contribute to sustainable organizational success.

Course Objectives

By the end of this course, participants will be able to:

- Understand the structure and purpose of the International Professional Practices Framework IPPF.
- Apply international auditing standards and ethical principles in all phases of internal audit work.
- Analyze the relationship between governance, risk management, and control within the IPPF context.
- Implement the Code of Ethics and core principles of the internal audit profession.
- Assess and improve internal control systems using the IPPF standards.
- Design and execute audit engagements aligned with international professional practices.
- Develop quality assurance and continuous improvement mechanisms within audit functions.
- Strengthen the strategic role of internal auditing in achieving organizational objectives.
