Comprehensive Treasury & Investment Strategies: Markets, ALM & Islamic Finance

Ref: 3255474_197008 **Date:** 1 – 5 March 2027 **Location:** London (UK) **Fees:** 5400 GBP

Introduction

This program offers a holistic and modern overview of treasury operations across global financial markets. It brings together key areas including commodities trading, foreign exchange, equities, asset-liability management ALM, Islamic banking treasury practices, and emerging opportunities in carbon markets and sustainable finance.

Through practical insights and real-world techniques, participants will learn how to build effective treasury and investment strategies, enhance portfolio performance, manage multi-asset risks, and ensure full compliance with evolving regulatory frameworks.

Course Objectives

By the end of this course, participants will be able to:

- Understand the principles and operational dynamics of commodities, forex, and equities trading.
- Apply asset-liability management techniques to strengthen liquidity, stability, and profitability.
- Formulate strategic treasury frameworks aligned with Islamic finance principles.
- Identify and evaluate investment opportunities within carbon markets and sustainable finance.
- Integrate multi-asset treasury operations to optimize performance and enhance risk management.
