Introduction

An Individual Development Plan IDP is a strategic tool essential for the success of executives, team leaders, and professionals across various sectors and organizations.
In the fast-evolving work environment of the Middle East and North Africa MENA region, the IDP serves as a practical roadmap, helping individuals identify their strengths, enhance their skills, and achieve their professional aspirations efficiently.
The IDP targets all career levels, from early and mid-career professionals seeking to refine core and specialized skills, to senior and mid-level leaders aiming to elevate their leadership and strategic abilities. Whether you work in the oil and gas sector, banking and financial services, telecommunications, or within HR, project management, marketing, and sales departments, an IDP provides a solid foundation for unlocking your potential and achieving measurable results.
This article offers a comprehensive and practical framework for designing and implementing an effective IDP aligned with workplace needs and challenges, while highlighting the latest trends and global best practices.
