Managing the cash Cycle–Accounts Receivable & Payable

Ref: 321553_295510 **Date:** 25 – 29 July 2027 **Location:** Online **Fees:** 2200 GBP

Introduction

The cash cycle plays a crucial role in managing working capital and generating profit. The better you manage the cash cycle, the more profit you generate. Best practices in accounts receivable and payable management are central to improving the cash cycle. This course is designed to help you master these practices and optimize cash flow within your organization. By understanding the financial management cycle, you will gain the tools needed to enhance cash management and working capital strategies effectively.

Course Objectives

By the end of this course, participants will be able to:

- Enhance their understanding of the accounting environment, key financial statements, and IFRS.
- Identify best practices for managing accounts receivable and improve credit terms management.
- Learn inventory and supply chain management best practices.
- Identify strategies for effective accounts payable management.
- Improve skills in cash and working capital management using the latest tools and technology.
- Deepen their understanding of the cash cycle and how to manage it efficiently.
- Learn how to optimize cash flow and streamline working capital processes.

Course Outlines

Day 1: Introduction to Accounts Receivable

- Working capital and cash management fundamentals.
- Understanding the "cost of credit" and its impact on cash flow.
