Advanced Internal Audit

Ref: 321732_298322 **Date:** 22 November – 3 December 2026 **Location:** Amman (Jordan) **Fees:** 7600 GBP

Introduction

Ineffective internal audits can lead to severe consequences, including process failures, customer dissatisfaction, and regulatory noncompliance. Developing strong internal auditing skills is essential for organizations to maintain operational effectiveness and ensure adherence to industry standards. This course is designed to optimize your auditing capabilities, aligning with internationally recognized ISO 19011 guidelines for auditing management systems. Whether you're aiming to achieve certified internal audit status or looking to refine your internal audit skills, this course will provide you with the knowledge and practical expertise to conduct thorough and effective audits.

Course Objectives

- Gain confidence in preparing, conducting, and following up on audit activities: Master the complete audit cycle, from planning to execution and reporting.
- Learn to write factual audit reports and suggest corrective actions: Develop the ability to document audit findings and offer actionable recommendations.
- Understand the guidelines of management system auditing according to ISO 19011: Comprehend key principles, processes, and responsibilities involved in the auditing process.
- Enhance professional development: Strengthen your understanding of internal audit communication skills and leadership qualities to effectively manage internal audit teams.

Course Outlines

Day 1: Management Systems Overview

- Overview of internal audit and ISO 19011 guidelines for auditing management systems.
- Key audit terms and definitions.
- The audit process, including audit responsibilities, evidence, scope, objectives, and criteria.
- Principles of auditing and typical audit activities.

Day 2: Planning & Initiating the Audit
