Competency Modelling in HRM

Ref: 3254278_305819 **Date:** 4 – 8 October 2027 **Location:** Amsterdam (Netherlands) **Fees:** 5200 GBP

Introduction

Welcome to the Advanced Course on Competency Modeling in Human Resource Management HRM. In today's rapidly evolving business landscape, organizations increasingly recognize the value of aligning their workforce with strategic goals and fostering the development of key competencies. This course is designed to give you a comprehensive understanding of competency modeling, equipping you with the skills needed to design and implement effective competency frameworks within your organization.

Course Objectives

- Explore the Concept of Competency Modeling: Gain a deep understanding of competency models and their relevance in HRM. Learn what is a competency model, define competencies, distinguish between different types, and understand how to apply them in various organizational contexts.
- Designing Competency Frameworks: Learn how to develop a competency model that accurately reflects the skills, behaviors, and attributes required for success in specific roles or organization-wide. This includes conducting job analysis, identifying core competencies, and creating competency dictionaries.
- Competency Assessment Methods: Discover advanced methods for evaluating individual and organizational competencies, including behavioral event interviewing, assessment centers, 360-degree feedback, and psychometric assessments. Learn how to select assessment methods based on organizational needs.
- Competency-Based Talent Management: Understand how to integrate competency models into talent management processes, such as recruitment, selection, performance management, and development. Learn how to use competencies for identifying high-potential employees, creating development plans, and facilitating succession planning.
- Competency-Based Learning and Development: Explore strategies for designing competency-based learning programs. Learn to align training with competency requirements, develop competency-based curricula, and evaluate training effectiveness.
