Aviation Internal Audit

Introduction

This course explores the regulatory requirements for an internal audit in aviation and the ways to conduct it. It develops the skills needed to evaluate and report on the effectiveness of the process implemented and to contribute to the continual improvement of a quality management system based on the ISO 9001 standard.

Course Objectives - Aviation Internal Auditing

- To be able to plan and conduct the auditing process
- To understand the basic techniques used in this process
- To evaluate your overall performance
- To write informative clear reports about this process
- To understand the basic terminology used in this field
