Certified ISO 19600 Lead Compliance Manager

Introduction

The ISO 19600 Lead Compliance Manager Training empowers you to develop the necessary skills and expertise to support an organization in establishing, implementing, evaluating, maintaining, and improving an effective compliance management system CMS based on the ISO 19600 standard. During this course, you will gain a thorough understanding of the best practices of compliance management and learn the essential elements required to implement and manage a CMS, such as: identifying compliance obligations, establishing CMS objectives and policies, demonstrating leadership and commitment, fostering a compliance culture, planning and controlling operations, conducting performance measurements, audits, management reviews, and ensuring continual improvement.

After mastering all the necessary concepts of Compliance Management, you can sit for the exam and apply for the PECB Certified ISO 19600 Lead Compliance Manager credential. Holding this certificate will prove your professional capabilities and competencies to effectively manage a compliance management system in an organization.

Course Objectives

By the end of this course, participants will be able to:

- Understand the components and operation of a CMS based on ISO 19600 and its key processes.
- Recognize the correlation between ISO 19600 and other standards and regulatory frameworks.
- Understand the concepts, approaches, standards, methods, and techniques for the implementation and effective management of a CMS.
- Learn how to support an organization to effectively plan, implement, manage, monitor, and maintain a CMS to ensure ongoing compliance.
- Acquire the expertise to advise organizations on implementing CMS best practices and improving their compliance operations.

Course Outlines
