# Executive Emotional Intelligence, Leadership & Coaching Mastery Program

## Introduction

The Executive Emotional Intelligence, Leadership & Coaching Mastery Program is an advanced and integrated executive development course designed to strengthen leadership capability through three essential areas: emotional intelligence, executive leadership, and executive coaching.

This program supports senior professionals, managers, and leaders in leading teams more effectively within complex and fast-changing business environments. It combines behavioral intelligence, strategic leadership thinking, and executive coaching methodologies into a structured learning journey focused on practical application and measurable leadership impact.

Throughout the program, participants will gain a deeper understanding of how emotional intelligence improves leadership effectiveness, how executive leadership drives organizational performance, and how coaching helps develop individuals, strengthen team capability, and build accountability.

By the end of the course, participants will be better prepared to lead with awareness, make sound decisions under pressure, and apply coaching techniques to improve individual and team performance. Upon completion, participants will receive an official attendance certificate from Blackbird Training Centre, issued from the London branch with QR verification.

## Course Objectives

By the end of this course, participants will be able to:

- Develop executive-level emotional intelligence by strengthening self-awareness, emotional regulation, empathy, social awareness, and motivation.
- Enhance executive leadership capability to manage teams, lead change, and improve organizational performance.
- Apply executive coaching techniques to develop individuals through structured conversations, feedback, and performance improvement tools.
- Improve communication and influence skills to manage stakeholders, resolve conflicts, and handle difficult conversations effectively.
- Strengthen decision-making by integrating emotional intelligence and coaching approaches into leadership situations.
- Build high-performance teams based on motivation, empowerment, delegation, and accountability.
- Lead organizational change and transformation through clear vision, influence, and effective execution.
- Create a personal leadership development plan to apply learning in real workplace situations.

## Course Outlines
