Certified Manager of Quality Organizational Excellence (CMQ/OE)

Ref: 3255238_335703 **Date:** 7 – 11 June 2027 **Location:** Toronto (Canada) **Fees:** 5900 GBP

Introduction

In today's highly competitive business environment, organizations require leaders who can champion quality and drive excellence across all levels. The Certified Manager of Quality/Organizational Excellence CMQ/OE credential, offered by ASQ, validates professionals with advanced knowledge in quality management principles, leadership, strategic planning, and continuous improvement.

This intensive 1-week preparation course is designed for professionals aiming to achieve the CMQ/OE certification. It provides a comprehensive review of the Body of Knowledge BoK through a blend of lectures, case studies, practical exercises, and mock exams. Participants will gain the expertise and confidence required to pass the exam and apply quality leadership principles effectively within their organizations.

Course Objectives

By the end of this course, participants will be able to:

- Understand the role of a CMQ/OE in leading quality initiatives and driving organizational excellence.
- Apply leadership, strategic planning, and change management techniques effectively.
- Design, implement, and audit Quality Management Systems QMS aligned with international standards.
- Develop performance measurement frameworks that align with organizational strategy.
- Apply continuous improvement methodologies such as Lean, Six Sigma, and TQM.
- Utilize advanced quality tools for root cause analysis and problem-solving.
- Strengthen exam readiness through mock tests and practice questions based on ASQ's CMQ/OE exam structure.

Course Outlines

Day 1: Leadership & Strategic Management

- Role of the Certified Manager of Quality in organizational leadership.
- Leadership models, principles, and ethics.
- Strategic planning and deployment vision, mission, values.
- Change management and organizational culture.
