Securities settlement messaging (MT54x / ISO equivalents) Corporate actions processing

26 – 30 July 2027
Düsseldorf (Germany)

Securities settlement messaging (MT54x / ISO equivalents) Corporate actions processing

Ref: 3255673_348102 **Date:** 26 – 30 July 2027 **Location:** Düsseldorf (Germany) **Fees:** 5200 GBP

Introduction

This course provides a comprehensive and practical understanding of securities settlement operations, focusing on settlement messaging MT54x and their ISO equivalents, alongside corporate actions processing. It is designed to equip participants with the knowledge and skills required to manage post-trade activities efficiently within modern financial institutions.

Through a structured and application-driven approach, participants will gain hands-on insight into message flows, settlement processes, and corporate events, ensuring accuracy, compliance, and operational excellence across financial systems.

Course Objectives

By the end of this course, participants will be able to:

- Understand the post-trade lifecycle of securities transactions
- Interpret and use SWIFT MT54x messages MT540-MT549
- Understand ISO standards ISO 15022 & ISO 20022 and their applications
- Analyze settlement message flows between custodians, brokers, and CSDs
- Manage and process corporate actions effectively
- Reduce operational risks and settlement errors
- Ensure compliance with international financial standards

Course Outlines
