Advanced Budgeting Workshop

Code: FA28 From: 23 - 27 March 2025 City: Istanbul (Turkey) Fees: 3900 Pound

Introduction

This course is considered the second level in budgeting after our "Effective Budgeting and Cost Control" program. It goes beyond the theory of budgeting as a concept to over specific steps to make the budget a value-added process in the organization. By building user-friendly models and applying scenario analysis, management will spend less time gathering data and more time in analyzing it for decision making. Several Microsoft Excel tools are used throughout this course program to make it practical and to provide participants with the skills needed to apply the tools in their organization immediately. Such tools include 'what-if' and the solver, among many others.

Course Objectives of Advanced Budgeting Workshop

- Create budget templates and models for their departments or organizations
- Apply several forecasting techniques to better manage uncertainties in budgeting
- Evaluate capital budgeting decisions using several methods and recommend proper action
- Utilize Microsoft Excel functions and tools in the budgeting process
- Evaluate the budgeting process in their organization and recommend improvements
