Analytical and Critical Thinking Skills

Code: PS28 From: 7 - 11 June 2026 City: Istanbul (Turkey) Fees: 3900 Pound

Introduction

Every day, we face numerous situations at home or work where our decisions matter. Making the right choice saves time, reduces costs, and fosters happiness. Developing critical thinking and analytical skills is essential for making well-informed decisions. This course helps participants refine their intuition, make rational conclusions, and adopt analytical and critical thinking skills as second nature. By practicing these techniques, participants will learn to analyze data effectively and draw logical correlations, enabling them to make sound decisions in their professional and personal lives.

Course Objectives

By the end of this Analytical and Critical Thinking Skills, participants will be able to:

- Investigate data thoroughly and derive logical conclusions.
- Make analytical thinking a regular practice.
- Correlate information logically and systematically.
- Master techniques for analytical and critical thinking skills development.
- Build confidence in applying critical thinking and communication skills effectively through the analytical skills course.

Course Outlines

Day 1: Fundamentals of Critical Thinking and analytical skills course

- Definition of critical thinking and analytical skills.
- Core skills and concepts of critical thinking.
- The importance of analytical and critical thinking skills in decision-making.
- Understanding the "habits of mind."
- The role of self-confidence in critical thinking.

Day 2: Applying Critical Thinking

- Main lines of reasoning in analytical thinking.
- Tools for improving critical thinking and analytical skills course.
- Step-by-step guide to critical thinking.
- Defining and framing problems effectively.
- Formulating and testing hypotheses logically.

Day 3: Critical Thinking in Practice

- Methods for collecting relevant facts.
- Using analysis to identify logical relationships.
