Employee safety and risk management in the work environment

Code: PM28 From: 11 - 15 November 2024 City: Amsterdam (Netherlands) Fees: 4200 Pound

Introduction

This course comes to meet the needs of specialists in health, safety and security, and risk management, and to meet the needs of all organizations and institutions in the work environment in the public and private sectors. The departments and sections of "security and safety" are among the most important elements of modern institutions and facilities and should be included in the training plans that they include. Any strategy because of its extreme importance in protecting lives and property and what it does in terms of leadership, guidance, setting rules, spreading preventive awareness and clarifying technical instructions. All these characteristics make it so important that it should take an important place in all business in terms of its development and training of workers with everything related to the latest International practices and modern methodologies, in the government and private sectors, through which the level of performance and levels of occupational safety and security can be raised to reach quality standards in the management of occupational safety and health policy, planning, development and coordination as it is the link between other departments and full supervision of occupational safety work in the facilities.

Objectives of the Employee Safety And Risk Management In The Work Environment

- Identifying a set of procedures that lead to providing occupational protection for employees, reducing the risk of injury to the employee and the facility, and trying to prevent or reduce the occurrence of accidents, and thus provide a sound professional atmosphere that helps work.
- Identify the rights and duties of both the employee and the employer
- Identify the requirements for compliance with international standards for public safety and security
- Identify risks in the work environment and take appropriate measures to overcome them
- Gain the skill of auditing the work environment and writing reports
