Strategic Planning & Operational Crisis Management

Code: LM28 From: 15 - 19 June 2026 City: Toronto (Canada) Fees: 4700 Pound

Introduction

The "Strategic Planning and Operational Management of Crises" course offers intensive training in applying strategic thinking and environmental analysis to achieve organizational goals. This course covers essential skills in strategic management, goal setting, and the development of Key Performance Indicators KPIs. It emphasizes the importance of translating strategic plans into effective operational plans and managing crises with clear strategies and efficient communication with stakeholders.

In today's volatile business environment, effective crisis management and strategic planning are vital for any organization. This course equips participants with the tools to navigate both strategic and crisis situations successfully, ensuring that they can lead their organizations to success, even in challenging times.

Course Objectives

By the end of this course, participants will be able to:

- Apply strategic thinking to analyze their environment and determine their organization's ambition.
- Implement the strategic management process to achieve the desired objectives.
- Select and implement strategies that create a sustainable competitive advantage for the organization.
- Define strategic objectives, KPIs, and SMART targets for their organization.
- Transform strategic plans into operational plans through the creation of strategic initiatives and proper sequencing of activities.
- Participate in the performance management cycle to ensure the effective execution of chosen strategies.
- Enhance their ability to manage crisis situations effectively using structured approaches.

Course Outlines
