## The Process of Professional Strategic Planning

Code: PS28 From: 29 September - 3 October 2025 City: Amsterdam Fees: 4200 Pound

### Introduction

An organization without a strategy is like a ship without a rudder. It's essential for any organization to have a clear direction, set ambitious goals, and understand the current and future environment in order to provide exceptional value to its stakeholders and customers. This is where strategic planning becomes crucial. Without a well-structured plan, organizations cannot continue to thrive and achieve sustainable growth.

In this course, we will explore the step-by-step strategic planning process, starting with the foundational elements of strategic thinking, followed by the planning components, and concluding with the effective execution of the strategy. By the end of the course, participants will be equipped with the necessary skills to implement or refine the strategic management process within their organization, ensuring they achieve their vision and mission.

### Course Objectives

- Apply Strategic Thinking: Learn how to assess your current environment and determine organizational ambition through effective strategic thinking.
- Leverage the Strategic Management Process: Understand how to employ the strategic management process to best achieve organizational goals.
- Choose Sustainable Strategies: Assess and choose strategies that create a sustainable competitive advantage for the organization.
- Set Clear Strategic Objectives and KPIs: Learn how to set SMART targets, define Key Performance Indicators KPIs, and align objectives with your overall strategy.
- Convert Plans into Action: Develop and implement strategic initiatives, transforming your strategic plans into detailed operational plans.
- Ensure Proper Execution: Participate in the performance management cycle to ensure effective execution of the chosen strategies.

### Course Outlines

#### Day 1: Strategic Thinking and Planning

- Strategy Safari: A comprehensive introduction to professional strategic planning.
- The Strategic Management Process: Exploring the step-by-step strategic planning process.
- Strategic Thinking vs. Strategic Planning: Understanding the key differences and how to blend both in the planning phase.
- Benefits of Strategic Management: Learn how to benefit from adopting a well-defined strategic planning process.
- Myths About Strategy: Debunking common misconceptions surrounding strategic planning.
- Environmental Analysis: Using tools like Porter's 5 Forces, SWOT analysis, and PEDESTL frameworks to assess internal and external factors that impact strategy.
