Effective Sales Management & Best Practices

Code: CC32 From: 3 - 7 August 2026 City: Amsterdam (Netherlands) Fees: 5200 Pound

Introduction

Achieving exceptional sales results in an increasingly competitive market is no easy feat. To succeed, companies must establish a modern sales force management system and provide their sales management teams with effective training. This course is designed to equip frontline sales managers with the knowledge, skills, and tools necessary to drive performance. It focuses on improving organizational and forecasting skills while also refining technical competencies that guide sales teams toward higher achievements.

The course emphasizes effective sales management techniques, ensuring that participants not only learn how to design winning sales strategies but also gain the leadership and team-building skills needed to improve sales performance across the board.

Course Objectives

- Design and deliver effective sales strategies, organizing sales territories to maximize coverage and efficiency.
- Utilize various forecasting models to predict and optimize sales results.
- Evaluate and train the sales team to boost productivity and drive profitability.
- Enhance leadership and team-building skills to improve overall sales performance and employee retention.
- Conduct comprehensive sales performance reviews using proven evaluation models to ensure continuous improvement.

Course Outlines

Day 1: Sales Management & the Marketing Mix

- Introduction to sales management and its role in business success.
- Understanding the marketing mix and the role of personal selling in this context.
- Identifying the sales competency model and common mistakes made by sales managers.
- Planning, strategy, and organization of sales efforts:
 - SWOT analysis to assess strengths, weaknesses, opportunities, and threats.
 - Creating sales strategies based on market analysis.
 - Effective sales forecasting techniques.
- Organizing the sales force:
 - Designing and managing sales territories.
 - Key account management and account analysis best practices.

Day 2: The Sales Cycle & Process

- Tracking daily activities of salespeople to maintain accuracy and efficiency.
