Documents Control & Record Management

Code: IT28 From: 18 - 22 August 2025 City: Amsterdam (Netherlands) Fees: 4900 Pound

Introduction

Record management is an inevitable part of any growing business. Hospitals need to keep records of their patients, schools of their students, and police departments of the criminals. Examples are everywhere. The information must be stored safely, and easily accessed by authorized personnel when needed. How to store this data? How to retrieve it? When to destroy it? All of these questions will be covered by this course. It will also explain the system of the ISO 15489.

This part of ISO 15489 describes concepts and principles relating to the records, metadata for records and records systems; policies, assigned responsibilities, monitoring, and training supporting the effective management of records; recurrent analysis of business context and the identification of records requirements; records controls; and processes for creating, capturing and managing records.

Course Objectives of Documents and Record Control

- Understanding the ISO 15489 standards.
- Implementing the process of document and records management.
- Retrieving documents when needed.
- Understanding the documents and records lifecycle.
- Authorizing certain personnel to access the documents.
