The A - Z of Warehouse Management

Code: SC28 From: 2 - 6 June 2025 City: Amsterdam (Netherlands) Fees: 4200 Pound

Introduction

Warehousing operations are at the heart of the supply chain of any organization. The ability to secure the storage and flow of supplies with an eye on balancing costs with desired service levels provides a formidable challenge to the warehousing professional.

In this course, we describe the strategic role of warehousing in the broader context of supply chain management and logistics. We also detail the different warehousing activities and focus on the ones which warehousing can contribute to, in the organization. In addition, we examine the operational and financial performance aspect of warehousing, with an eye on sustainability.

Course Objectives of The A - Z of Warehouse Management

- Describe the strategic role of warehouses in the supply chain
- Profile and optimize warehousing activities
- Identify different warehousing configurations and value-adding activities
- Develop key performance indicators and benchmark warehouse performance
- Outline the cost and revenue aspects of warehousing
- Recognize sustainable warehousing techniques and practices

The A - Z of Warehouse Management Course Outlines
