Time & Stress Management

Ref: 3226_133941 **Date:** 31 May – 4 June 2027 **Location:** Prague (Czech Republic) **Fees:** 5200 GBP

Introduction

Time management is not just about managing your schedule, it's about finding the time for all the things you want and need to do. It helps you decide which tasks are urgent and which can wait. Learning how to improve time management, handle your activities, and meet your commitments can be challenging, but it is essential for reducing stress and making your life more meaningful and productive. By mastering time and stress management, you can enhance your professional and personal life.

This course is designed to help you manage your time more efficiently and effectively. Through interactive exercises, participants will explore various time management techniques, stress management strategies, and practical approaches to improve their productivity at work and in daily life. By the end of the course, you'll be equipped with tools to handle the pressures of modern life, prioritize tasks, and take control of your time for better success and well-being.

Course Objectives

- Identify time management challenges and assess your efficiency in managing time.
- Understand the meaning of time management and explain the components of the Time Mastery Profile® for better time management.
- Apply proven techniques for time management to improve your effectiveness in both your personal and professional life.
- Analyze stress symptoms, their causes, and their negative impact on the body and mind.
- Implement effective stress management techniques to reduce stress and live a healthier, more fulfilling life.
- Learn how to use efficient time management techniques to enhance your productivity and time quality.

Course Outlines
