Professional Treasury & Cash Management

Code: FA28 From: 20 - 24 July 2025 City: Cairo (Egypt) Fees: 3300 Pound

Introduction

It is essential for every organization to effectively utilize its funds and manage its exposure to key risks arising from fluctuations in interest rates and foreign exchange rates. This course examines the important roles of the corporate treasury in managing cash flow and liquidity, working capital, accessing debt financing, and managing capital. This course provides professionals with a sound understanding of the tools and techniques required for effectively managing the various aspects of treasury risk.

Course Objectives of Professional Treasury and Cash Management

- Describe and explain the roles of corporate treasury management and the treasury function.
- Apply up-to-date practices covering asset-liability management and cash management techniques.
- Recognize and correctly measure financial instruments under International Financial Reporting Standards IFRS.
- Describe fair value measurement and explain its effect on financial instruments' presentation.
- Explain hedging and speculation, and distinguish between the different hedging techniques applied by the treasury function.
