Spreadsheet Skills for Planning, Forecasting & Budgeting

Code: FA28 From: 14 - 18 July 2025 City: Prague (Czech) Fees: 4400 Pound

Introduction

This hands-on, practical course will demonstrate how you can develop spreadsheet models to create a forecast, which can then be utilized to generate business plans and operating budgets with the use of Excel as it is used in practice. The applications will be focused on three crucial aspects of business and financial management - strategic planning, intelligent forecasting, and realistic budgeting. Delegates will learn how accessible the power of Excel is to provide realistic forecasts and prepare flexible budgets. The impact on efficiency in planning and control and therefore return on investment for companies and/or divisions will be startling.

Course Objectives
