MBA in Finance & Accounting

Code: FA32 From: 19 - 30 October 2026 City: Rome (Italy) Fees: 9400 Pound

Introduction

The MBA in Finance and Accounting is a highly intensive 10-day program designed to elevate your understanding and expertise in financial management and accounting practices. Whether you're exploring what an MBA in Finance offers or aiming to enhance your strategic leadership, this course provides an in-depth exploration of how finance serves as a central function in business. The program will help you understand best practices in finance and accounting while sharpening your management skills to make you a strategic leader in your organization. In today's competitive business world, mastering the intricacies of financial reporting, corporate governance, and strategic financial decision-making is key to ensuring success and sustainability.

If you're asking yourself, "What can you do with an MBA in finance?", this course is designed to equip you with the tools and knowledge to advance your career to the next level, preparing you to handle complex financial functions and play a key role in your company's success.

Course Objectives

The MBA in Finance focuses on developing the essential skills that today's finance professionals need to thrive. The key objectives of this course include:

- **Enhancing Leadership Skills:** Develop the ability to manage and motivate teams effectively, enabling you to become a strategic financial leader in your organization.
- **Utilizing Strategic Planning Techniques:** Master the use of advanced strategic planning tools that are vital for long-term business success.
- **Evaluating Financial Performance:** Learn to assess financial performance through key metrics such as ROI Return on Investment and ROCE Return on Capital Employed.
- **Understanding Best Practices in Accounting:** Gain a deep understanding of best practices in financial reporting, corporate governance, and accounting standards.
- **Building Advanced Financial Models:** Learn to implement next-generation financial modeling and leverage tools like NPV Net Present Value and real options for investment decision-making.
- **Becoming a Strategic Financial Leader:** Sharpen your skills to manage financial risk, make strategic decisions, and take on high-level responsibilities in the finance function of any organization.

Course Outlines
