ITIL 4

Code: IT28 From: 3 - 7 February 2025 City: Kuala Lumpur (Malaysia) Fees: 4900 Pound

Introduction

The ITIL 4 Foundation course is a comprehensive program designed to introduce participants to the key principles and concepts of IT service management using the ITIL 4 framework. Over five days, participants will gain a deep understanding of the history of ITIL, its guiding principles, and the Service Value System SVS. They will also explore the Service Value Chain and the ITIL service lifecycle, focusing on the objectives and activities of each stage. The training covers essential ITIL 4 practices, including incident management, problem management, and change management. The course concludes with exam preparation to help participants achieve ITIL 4 Foundation certification.

Course Objectives

- Introduction to ITIL 4: Understand the basics of ITIL 4, its history, and its significance in IT service management.
- Comprehensive Knowledge: Gain a thorough understanding of the core principles, concepts, and terminology of ITIL 4.
- Service Management Principles: Learn and apply the guiding principles of ITIL 4 to make better decisions in service management.
- Service Value System SVS: Familiarize yourself with the components of the ITIL Service Value System and how it creates value for organizations and customers.
- Service Value Chain: Explore the stages of the Service Value Chain and how it facilitates value creation.
- ITIL Service Lifecycle: Gain insights into each stage of the ITIL service lifecycle, including Service Strategy, Service Design, Service Transition, Service Operation, and Continual Service Improvement CSI.
- Key ITIL Practices: Understand essential ITIL 4 practices such as incident management, problem management, change management, and service level management.
- Application of ITIL Principles: Enable participants to apply ITIL 4 principles and practices to enhance IT service management within their organizations.
