Social Awareness & Community Development

Ref: 321608_141776 **Date:** 18 – 22 April 2027 **Location:** Dubai (UAE) **Fees:** 4900 GBP

Introduction

Do you often find yourself in situations where you've said or done something inappropriate, leading to awkward moments? These scenarios often stem from a lack of proper social awareness. Whether in professional or personal settings, success and well-being rely heavily on managing relationships and communicating effectively with others.

This course on social awareness training equips participants with the tools to understand what social awareness means, why it is important, and how it impacts the development of the community. Through interactive sessions and practical exercises, participants will learn how to communicate effectively, influence others, and develop a socially aware mindset to drive positive social change.

Course Objectives

- Understand the meaning of social awareness and its key elements.
- Learn about public awareness and the factors that influence it.
- Develop skills to set and achieve social awareness objectives.
- Master essential social communication skills for diverse situations.
- Enhance presentation skills and overcome anxiety during public speaking.
- Understand and address the different types of audiences effectively.
- Acquire persuasion and influence skills to drive social change.
- Learn strategies to manage public questions and interactions confidently.
