## Certificate in Advanced Budgeting and Forecasting

Code: FA28 From: 6 - 10 October 2025 City: Geneva (Switzerland) Fees: 4700 Pound

### Introduction

This course goes beyond the theory of budgeting as a concept to cover specific steps to make the budget a value-added process in the organisation. By building user-friendly models and applying scenario analysis, management will spend less time gathering data and more time analyzing this data for decision making. Several Microsoft Excel tools are used throughout this course for practicality and to provide participants with the skills needed to apply in their organization immediately. Such tools include 'what-if' analysis and the 'solver', among many others.

The course also highlights some of the main forecasting models and the detailed evaluation of capital budgeting techniques, all of which are applied in Microsoft Excel and put into practice.

### Course Objectives

- Evaluate the budgeting process in their organisations and recommend improvements.
- Create budget templates and models for their departments or organizations.
- Apply several forecasting techniques to better manage uncertainties in budgeting.
- Evaluate capital budgeting decisions using several methods and recommend proper action.
