Certified Information Security Manager (CISM)

Code: IT28 From: 24 - 28 March 2025 City: Rome (Italy) Fees: 4700 Pound

Introduction

The Certified Information Security Manager CISM is a globally recognized certification designed for information security professionals who are responsible for managing, developing and overseeing information security programs within an organization. This certification is awarded by the Information Systems Audit and Control Association ISACA.

The CISM certification validates the knowledge and skills required to design, implement, and manage effective information security programs. It covers four domains: Information Security Governance, Risk Management, Information Security Program Development and Management, and Information Security Incident Management.

Course Objective

- Understand the importance of information security governance and the key components of an effective information security governance framework
- Identify and assess information security risks, and develop and implement risk management strategies
- Design and implement effective information security programs, including security controls, technologies, and awareness training
- Develop and implement an incident management plan, and respond to security incidents
- Understand legal and regulatory requirements for reporting security incidents, forensic investigation techniques, and business continuity and disaster recovery planning
