## Certified Facility Manager (CFM)

Code: SC28 From: 13 - 17 July 2026 City: Geneva (Switzerland) Fees: 4700 Pound

### Introduction

The Certified Facility Manager CFM course is tailored to professionals seeking to enhance their knowledge and skills in facility management. This comprehensive program covers a wide array of topics essential to effectively managing facilities, including operations and maintenance, project management, finance, and sustainability. Participants will be equipped with the expertise to manage facilities efficiently, ensuring smooth operations that align with organizational goals. Achieving the Certified Facility Manager certification demonstrates your proficiency and leadership in the field, providing you with a significant competitive edge in the job market.

### Course Objectives

- Learn essential facility manager skills, including the understanding of important terminologies, guidelines, and practices to manage tangible assets effectively under facility management.
- Gain expertise in sustainability concepts such as waste management, water management, energy management, and ensuring legal compliance.
- Identify and evaluate the human, political, social, economic, and industry factors that affect facility management, and align the management strategies with the goals of the organization.
- Apply tools and techniques in planning, coordinating, implementing, and evaluating facility management projects.
- Understand the financial and business aspects involved, including capital budgeting, financial analysis and reporting, and procurement contracting.
- Master quality, risk, information, and technology management through the application of various metrics, assessment tools, and techniques.

### Course Outlines

#### Day 1: Workplace Environment

- Occupant services and their importance in facility management.
- Managing occupant health, safety, and security within a facility.
- Building systems, infrastructure, and grounds maintenance.
- Understanding the role of furniture, fixtures, and equipment in facility management.
- Managing physical safety and security within facilities.
- Effective operations and maintenance processes in facilities.
- Work management support systems and team management.
- Planning for renewals and renovations.
- Overcoming team impediments and managing virtual teams.

#### Day 2: Strategic Planning and Alignment with the Organization

A graphic of a chessboard with several pawns. In the foreground, a large gold king piece stands prominently. Behind it, several silver and gold pawns are positioned on different squares. The background features a series of concentric circles, suggesting a strategic or planning theme.
