Certified Facility Manager (CFM)

Code: SC28 From: 23 - 27 December 2024 City: Cape Town (South Africa) Fees: 3300 Pound

Introduction

The Certified Facility Manager CFM course is designed to equip professionals with the knowledge and skills needed to excel in facility management. This comprehensive program covers key areas such as operations and maintenance, project management, finance, and sustainability. By completing the course, participants will be prepared to manage facilities efficiently, ensuring smooth operations and aligning them with organizational goals. Earning the CFM credential demonstrates expertise and leadership in the field, providing a competitive advantage in the job market.

Course Objectives

- Know important terminologies, guidelines, practices, and assessment techniques to effectively manage tangible assets under facilities management
- Keep abreast of sustainability concepts and assessment techniques under waste management, water management, energy management, etc., and ensure legal compliance
- Recognize, evaluate, and manage human, political, social, economic, and industry factors affecting facility management and strategically align facility management with the organization
- Apply tools and techniques to planning, coordinating, implementing, evaluating, and closing out facility management projects.
- Understand and employ financial and business aspects such as capital budgeting, financial analysis & reporting, procurement contracting, etc.,
- Apply various metrics, steps, assessment tools, and techniques in quality, risk, information and technology management
