Code: PS28 From: 24 - 28 March 2025 City: Geneva (Switzerland) Fees: 4700 Pound

Introduction

A technical report is more than a mere representation of facts pertaining to a situation. An effective report can move people towards taking a desired course of action. Moreover, the quality of a report can influence how its subject matter is perceived by the reader. In this course, we will describe the different types of reports. We will master the structuring and scoping of reports, from conception to completion. We will also learn to write for our specific audience with a tangible sense of purpose. Finally, we will discover a logical approach towards developing visual aids to support our representation of the facts, conclusions, and recommendations that comprise the report.

Course Objectives of Report Writing and Communication Skills

- Write purposeful business and technical reports that meet readers' requirements
- Utilize different templates and report types to achieve reporting objectives
- Generate reliable conclusions effectively by researching, analyzing, and organizing information
- Provide evidence-backed recommendations to support management decision making
- Use visual aids appropriately to support the presentation of information
- Apply advanced methodologies to make every report a winning report
