CRISC (Certified in Risk and Information Systems Control)

Code: IT28 From: 20 - 24 April 2025 City: Dubai (UAE) Fees: 4400 Pound

Introduction

The CRISC certification is globally recognized as a leading credential for professionals who manage risk and information systems control. This 5-day course is designed to prepare participants for the CRISC exam by providing a comprehensive understanding of the key concepts, principles, and practices in risk management and information systems control. Participants will learn how to identify, assess, and mitigate information systems risks, align risk management with business goals, and establish effective controls. This course will also cover the domains tested in the CRISC exam, ensuring that participants are well-prepared to earn their CRISC certification.

Course Objectives

- Introduce participants to the CRISC certification and its significance in the field of risk management and information systems control.
- Provide a deep understanding of the key domains and concepts covered in the CRISC exam.
- Equip participants with the knowledge and skills needed to identify and assess information systems risks.
- Teach participants how to develop and implement effective risk mitigation and control strategies
- Prepare participants to align risk management practices with business objectives and regulations
- Offer practice questions and exam preparation strategies to increase participants' confidence in passing the CRISC exam.
