Data Analysis for Customer Experience

Code: CC28 From: 27 - 31 January 2025 City: Kigali (Rwanda) Fees: 3700 Pound

Introduction

In today's competitive business landscape, understanding and improving customer experience is essential for success. Data analysis is a powerful tool for uncovering insights that can drive better customer experiences. This 5-day course is designed to equip participants with the knowledge and skills needed to analyze customer data effectively, identify pain points, and make data-driven decisions to enhance customer satisfaction. Through a combination of theory, practical exercises, and case studies, participants will learn how to leverage data analysis techniques to gain a deeper understanding of their customers and improve their overall experience.

Course Objectives

- Introduce participants to the importance of data analysis in enhancing customer experience.
- Provide a comprehensive understanding of customer data sources and collection methods.
- Equip participants with data analysis techniques for uncovering customer insights.
- Teach participants how to visualize and present data effectively to drive actionable results.
- Enable participants to apply data-driven decision-making to enhance customer satisfaction.
- Foster the ability to measure the impact of customer experience improvements.

Course Outlines
