FIDIC Contract Management and Dispute Resolution

Code: LD28 From: 8 - 12 December 2025 City: London (UK) Fees: 5100 Pound

Introduction

In the dynamic world of construction, understanding the FIDIC contracts and their dispute resolution processes is essential for anyone involved in managing construction projects. FIDIC International Federation of Consulting Engineers contracts are widely regarded as the global standard for managing and governing construction projects. This comprehensive course offers an in-depth look at the various types of FIDIC contracts, their key provisions, administration procedures, and the effective management of disputes that may arise during project execution.

The FIDIC dispute resolution process is crucial to addressing conflicts and ensuring that construction projects proceed smoothly. By gaining knowledge of the contract dispute resolution methods and dispute resolution clauses in FIDIC contracts, participants will learn how to avoid, manage, and resolve disputes efficiently. Whether you're a project manager, engineer, contractor, or legal professional, this course is tailored to provide you with the skills and strategies necessary to navigate FIDIC contracts and ensure successful project outcomes.

Course Objectives

Upon completing this FIDIC contracts course, participants will be able to:

- Understand the fundamental principles of FIDIC contracts, including their types and key provisions.
- Identify the roles and responsibilities of all parties involved in a FIDIC contract Employer, Contractor, Engineer.
- Effectively administer FIDIC contracts, addressing variations, claims, and payments.
- Implement dispute resolution strategies to prevent conflicts and address issues early.
- Manage claims under FIDIC contracts, from documentation to evaluation and settlement.
- Gain insight into FIDIC dispute resolution mechanisms, including arbitration and dispute boards.
- Analyze real-world case studies to apply practical lessons learned in dispute management.
- Understand the advantages of using FIDIC contracts for international and domestic construction projects.
