Materials Management & Inventory Control Workshop

Code: OC28 From: 2 - 6 December 2024 City: Amsterdam (Netherlands) Fees: 4900 Pound

Introduction

This training workshop provides a comprehensive introduction to inventory management and aims to equip participants with functional knowledge and understanding of inventory management principles, including control, roles, responsibilities, and techniques that contribute to enhancing inputs into the enterprise's comprehensive supply chain strategy. Additionally, the workshop covers the roles and responsibilities of a materials manager, a key function in the supply chain, and effective management that leads to achieving business objectives and ensuring customer satisfaction.

Workshop Objectives

- Gain a deeper understanding of the objectives and goals of inventory management.
- Discover tools and techniques for effective inventory control.
- Learn how to manage and monitor inventory accuracy.
- Implement the inventory management process within your organization.
- Plan and monitor inventory levels effectively.
- Understand material control in inventory management.
- Familiarize yourself with material requirements planning principles.
- Explore key scheduling management methods.

Workshop Outlines

Day 1: Inventory and Supply Chain

- Introduction to inventory management: Understanding the meaning of material management and its impact on the overall supply chain strategy.
- Types of stocks.
- Demand fluctuations.
- Replenishment in networks.
- Flow management.
- First and second-tier supply chains.
- Fundamentals of supply chain management.
