

Advanced Supply Chain Management

Florida (USA)

7 - 11 April 2025

UK Training

PARTNER

The image features a chessboard with several pieces, including a king and pawns, set against a background of concentric circles. The king piece is the most prominent, positioned in the foreground on the right side of the board. The pawns are arranged in a line to the left of the king. The background consists of a series of concentric circles that create a sense of depth and focus on the chess pieces.

Advanced Supply Chain Management

Code: SC28 From: 7 - 11 April 2025 City: Florida (USA) Fees: 5700 Pound

Introduction

Building on your existing certifications in Certified International Supply Chain Manager CISCN and Certified International Supply Chain Professional CISCP, the "Advanced Supply Chain Management" course is designed to take your expertise to the next level. This 5-day course provides an in-depth exploration of advanced supply chain concepts, strategies, and technologies. It is tailored for professionals like you who are seeking to further enhance their knowledge and skills in supply chain management to excel in leadership roles.

Course Objectives

- Expand your understanding of advanced supply chain management concepts.
- Develop the skills required for strategic supply chain decision-making.
- Explore the latest technologies and trends reshaping the supply chain landscape.
- Learn how to optimize supply chain processes for efficiency and sustainability.
- Prepare for advanced leadership roles in supply chain management.
- Network with peers and industry experts to exchange insights and experiences.
