The Certified Safety Professional (CSP)

Code: HS28 From: 20 - 24 October 2025 City: Amsterdam (Netherlands) Fees: 4900 Pound

Introduction

The Certified Safety Professional CSP is one of the most respected certifications in the field of occupational safety and health. This certification demonstrates an individual's expertise in safety management, risk control, and emergency response. Certified Safety Professionals play a vital role in protecting the health and safety of workers and help companies comply with safety regulations, reducing workplace accidents.

The CSP certification proves that professionals possess the necessary skills to identify hazards, develop safety programs, and communicate effectively about safety issues in the workplace.

Course Objectives

- Understand and apply the basics of safety management.
- Identify and assess workplace hazards.
- Design and implement safety programs and procedures.
- Communicate effectively about safety issues.
- Prepare for and pass the Certified Safety Professional CSP exam.

Course Outlines

Day 1: Introduction to Occupational Safety

- Overview of the Certified Safety Professional CSP certification.
- Key laws and standards related to safety.
- The role of leadership in promoting a safe work environment.

Day 2: Hazard Identification and Assessment

- How to identify workplace hazards.
- Effectively assess and manage risks.
- Investigating accidents and analyzing their root causes.

Day 3: Developing Safety Programs

- Designing and implementing safety programs.
- Establishing safety policies and procedures.
- Planning and preparing for emergencies.

Day 4: Safety Management and Communication

- Safety management systems.
- Conducting safety inspections and audits.
- Communicating and training effectively on safety issues.

Day 5: Preparing for the CSP Exam

- Reviewing key topics covered in the CSP exam.
- Practice exams and sample questions.
- Strategies and tips for passing the exam.

This course aims to prepare participants to successfully pass the CSP certification, providing them with the skills needed to manage occupational safety effectively in various work environments.
