Inventory Management

Code: SC28 From: 17 - 21 March 2025 City: Brussels (Belgium) Fees: 4400 Pound

Introduction

Inventory Management is the process of efficiently overseeing and controlling the flow of goods, products, or materials within a business or organization. It involves the planning, procurement, storage, tracking, and distribution of inventory items to meet customer demand while minimizing carrying costs and ensuring a smooth operation. Effective inventory management plays a crucial role in ensuring that a company has the right amount of inventory on hand, neither excessive nor insufficient, to meet its operational needs and customer demands.

Course Objectives

- Understand the Importance of Inventory
- Learn Inventory Fundamentals
- Master Inventory Control Techniques
- Enhance Demand Forecasting Skills
- Reduce Inventory Risks
- Enhance Warehouse Management
- Implement Key Performance Indicators KPIs
- Develop Strategies for Continuous Improvement
- Cost Control
- Adapt to Market Changes
- Operational Efficiency
