Physical security systems

Code: IT28 From: 1 - 5 June 2025 City: Amman (Jordan) Fees: 4000 Pound

Introduction

In today's world, safeguarding assets and facilities from physical threats is more critical than ever. Our course on Physical Security Systems provides comprehensive training on designing, implementing, and managing robust security measures. Participants will gain expertise in surveillance technologies, access control, alarm systems, and the integration of various security components. This course equips professionals with the skills needed to protect assets effectively, ensure safety, and respond to security breaches. Whether you're new to the field or looking to enhance your knowledge, this course is essential for mastering the fundamentals of physical security.

Course Objectives

- Demonstrate a strong knowledge of physical security planning.
- Develop a strong knowledge of access and egress control principles required to manage and perform physical security.
- Conduct risk, vulnerability, and exposure assessments.
- Demonstrate knowledge of internal versus external security procedures.
- Apply knowledge of Information Technology for access control.

Course Outlines
