## ITIL 4

Code: IT28 From: 3 - 7 November 2025 City: Kuala Lumpur (Malaysia) Fees: 4900 Pound

### Introduction

The ITIL 4 Foundation course is a comprehensive program designed to introduce participants to the core principles and concepts of IT service management using the ITIL 4 framework. Over the course of five days, participants will gain an in-depth understanding of the history of ITIL, its guiding principles, and the Service Value System SVS. They will explore the Service Value Chain and the ITIL service lifecycle, focusing on the objectives and activities of each stage. The training also covers essential ITIL 4 practices, including incident management, problem management, and change management. The course concludes with exam preparation to help participants achieve ITIL 4 Foundation certification.

### Course Objectives

By the end of this course, participants will be able to:

- Understand the basics of ITIL 4: Get familiar with the history of ITIL and the significance of ITIL 4 in IT service management.
- Gain comprehensive knowledge of the core principles, concepts, and terminology used in ITIL 4.
- Apply ITIL 4 service management principles to make better decisions in service delivery.
- Understand the Service Value System SVS: Learn the components of the ITIL 4 SVS and how it creates value for organizations and customers.
- Explore the Service Value Chain: Understand how the stages of the Service Value Chain facilitate value creation.
- Learn about the ITIL service lifecycle: Gain insights into each stage of the service lifecycle, including Service Strategy, Service Design, Service Transition, Service Operation, and Continual Service Improvement CSI.
- Understand essential ITIL practices: Get to know key practices like incident management, problem management, change management, and service level management.
- Enhance the application of ITIL principles: Apply ITIL 4 principles and practices to improve IT service management within your organization.
