# Advanced VMware and VEEM Integration

Code: IT28 From: 9 - 20 September 2024 City: London (UK) Fees: 9400 Pound

## Introduction

Welcome to the Advanced VMware and VEEM Training Course. This comprehensive program is designed to provide you with an in-depth understanding of VMware, a leading virtualization platform, and VEEM, a prominent data protection and recovery solution. Over the course, you will explore advanced concepts, gain hands-on experience, and develop the skills needed to manage virtual environments and safeguard your data effectively.

## Objectives

- Develop an advanced understanding of VMware virtualization technology.
- Gain proficiency in configuring and managing VMware virtual infrastructure.
- Learn how to optimize performance, resource allocation, and scalability in VMware environments.
- Acquire the skills required to design, deploy, and maintain VMware solutions effectively.
- Explore VEEM data protection solutions and understand their importance in safeguarding critical business data.
- Learn how to set up VEEM backups, ensure data recoverability, and implement disaster recovery strategies.
- Develop the expertise to integrate VMware and VEEM for enhanced virtualization and data protection capabilities.

## Course Outlines

### Day 1

#### Introduction to VMware Virtualization

- Understanding virtualization concepts.
- Overview of VMware products and solutions.
- Installation and configuration of VMware ESXi.

### Day 2

#### Advanced VMware Configuration

- Virtual machine creation and management.
- Resource allocation and performance optimization.
- Virtual network and storage configuration.

### Day 3

#### VMware High Availability and Fault Tolerance

- Implementing HA and FT for mission-critical applications.
- Managing clusters and host profiles.
- Monitoring and troubleshooting VMware environments.

#### Day 4

##### VMware vCenter Server and Administration

- Installing and configuring VMware vCenter.
- Managing virtual machines with vCenter Server.
- vCenter Server best practices.

#### Day 5

##### VMware Security and Compliance

- Securing virtual environments.
- User and role management.
- Compliance and auditing in VMware.

#### Day 6

##### Introduction to VEEM Data Protection

- Understanding data protection concepts.
- VEEM products and features overview.
- Installation and configuration of VEEM Backup & Replication.

#### Day 7

##### VEEM Backup and Recovery Strategies

- VEEM backup jobs and policies.
- Data recovery and restore processes.
- Disaster recovery planning with VEEM.
- Integrating VMware and VEEM for comprehensive data protection.
