Asset Liability Management (ALM)

Code: LM32 From: 31 August - 4 September 2026 City: Baku (Azerbaijan) Fees: 5200 Pound

Introduction

The collapse of major financial institutions like SVB has shown that banks can fail for reasons beyond credit losses, such as unmanaged mark-to-market losses. This highlights the importance of effective Asset Liability Management Training ALM in safeguarding a bank's stability. In an environment of rising interest rates, younger bankers must adapt quickly to manage interest rate risk and understand the significance of ALM.

This Asset Liability Management training course is designed to equip banking professionals with the essential skills needed to manage assets and liabilities effectively. Participants will gain a comprehensive understanding of the ALM process, ALM techniques, and how to optimize risk management in banking. Whether you're seeking asset liability management certification or want to deepen your knowledge of asset liability management strategies, this course is for you.
