Strategic Procurement Planning

Code: SC28 From: 18 - 22 May 2026 City: Boston, Massachusetts (USA) Fees: 5700 Pound

Introduction

In today's fast-paced business environment, strategic procurement planning is vital for ensuring the sustainability of operations and achieving long-term organizational goals. By implementing effective procurement strategies, organizations can optimize performance, reduce risks, and establish seamless supplier integration.

This course is designed to develop a comprehensive understanding of the strategic procurement planning process, with a focus on public and private sector applications. Participants will explore ethical considerations, alignment with international standards, and tools for monitoring and evaluation. With an interactive and hands-on approach, the training equips participants to design plans that streamline procurement activities while addressing cultural and legal contexts.

Course Objectives

By the end of this course, participants will be able to:

- Write strategic procurement objectives and initiatives that align with long-term organizational goals.
- Categorize "spend items" into well-structured groups to support procurement strategy development.
- Apply demand forecasting techniques to enhance the planning of procurement activities.
- Create supplier integration strategies that ensure supply chain security.
- Evaluate supplier bids using scientific methods to facilitate effective decision-making.
