Technology Audit Foundation

Code: QM28 From: 23 - 27 March 2025 City: Washington (USA) Fees: 5700 Pound

Introduction:

In today's rapidly evolving technological landscape, organizations rely heavily on technology to drive their operations. Ensuring the reliability, security, and compliance of technology systems is paramount. This course, "Technology Audit Foundation," is designed to provide participants with a foundational understanding of technology audit principles and practices. Participants will gain insights into the importance of technology audits, the methodologies involved, and the key skills required to perform effective technology audits. By the end of this course, participants will be better equipped to contribute to their organization's technology governance and risk management efforts.

Objectives:

- Introduce participants to the fundamental concepts and importance of technology audits.
- Provide a comprehensive understanding of the technology audit process.
- Equip participants with the skills and knowledge to plan and conduct technology audits.
- Teach participants how to identify and assess technology-related risks and controls.
