Code: LM28 From: 30 June - 4 July 2025 City: Toronto (Canada) Fees: 4700 Pound

Introduction

Welcome to the "Mastering Product Management" course, a dynamic program designed to empower professionals with the essential skills and knowledge in product management. In today's ever-evolving business landscape, successful product management is a key driver of innovation and business growth. This comprehensive product management course offers a holistic understanding of the product management lifecycle, equipping participants with the necessary tools to navigate challenges and drive product success.

Course Objectives

- Understand the fundamentals of product management and its critical role in organizations.
- Develop a strategic approach to product management through effective planning and execution.
- Enhance product management skills in areas such as market analysis, customer feedback, and lifecycle management.
- Learn how to craft and implement successful product management strategies that align with business objectives.
- Explore various product management roles and the skills required to excel in them.

Course Outlines

Day 1: Introduction to Product Management

- What is Product Management? Understanding its definition and importance.
- Role and Responsibilities of a Product Manager: Insights into various product management roles.
- The Importance of Customer-Centric Product Management: Why product management must focus on the customer.
- Overview of the Product Management Lifecycle: Exploring the stages of the product management cycle.

Day 2: Strategic Product Planning

- Crafting a Compelling Product Vision and Strategy: Essential for product management strategy.
- Market Research and Analysis: Techniques to conduct effective product management analytics.
- Competitive Positioning and Differentiation: Key aspects of successful product management.

Day 3: Effective Product Development

- Ideation and Conceptualization: How to generate innovative product ideas.
- Agile Product Development Methodologies: Learning the methods of product management in a tech-driven world.
- Cross-Functional Collaboration in Product Teams: Enhancing teamwork for effective product management.
