## The comprehensive course in Strategies in Total Quality Management

Code: LM28 From: 25 August - 5 September 2025 City: London (UK) Fees: 7400 Pound

### Introduction

The Advanced Strategies in Total Quality Management TQM course is designed to provide participants with advanced knowledge and practical skills in Total Quality Management. This course is tailored for professionals who have a strong foundation in the basic principles of TQM and wish to deepen their expertise in implementing and managing TQM initiatives. Through theoretical discussions, case studies, and interactive exercises, participants will enhance their ability to drive TQM practices in their organizations. The course aims to offer a comprehensive understanding of the importance of Total Quality Management and how it can be effectively applied to achieve sustainable improvements in organizational performance.

### Course Objectives

By the end of this course, participants will be able to:

- Understand Advanced Concepts in Total Quality Management: Expand your knowledge of the basic principles of Total Quality Management and how they evolve into advanced strategies.
- Design and Implement Advanced TQM Strategies: Learn how to design and implement TQM strategies that help solve complex problems and improve organizational processes.
- Measure and Monitor Quality Performance: Gain knowledge on Total Quality Management analysis and how to use quality metrics to measure and enhance performance.
- Integrate Innovation and Technology in TQM: Understand the role of innovation and technology in improving TQM practices and adapting to emerging trends in quality management.
- Utilize Advanced Problem-Solving Tools: Apply methods of Total Quality Management such as Six Sigma and Root Cause Analysis to enhance process efficiency.
- Lead TQM Initiatives: Learn leadership techniques for managing and driving Total Quality Management initiatives within your organization.

### Course Outlines

#### Day 1: Advanced Concepts in Total Quality Management

- Reviewing the Basics of TQM and its evolution into advanced concepts.
- Strategic quality planning and decision-making processes.
- Statistical Process Control SPC and advanced quality tools.
- Quality cost analysis and performance measurement.

#### Day 2: Designing and Implementing Advanced TQM Strategies

- Developing a comprehensive TQM framework.
- Techniques for process improvement and waste reduction.
