Monitoring & Evaluation of Roads and Bridges

Code: NC28 From: 23 - 27 December 2024 City: London (UK) Fees: 5200 Pound

Introduction

This training course aims to equip participants with the necessary skills and knowledge to effectively monitor and evaluate roads and bridges infrastructure projects. Participants will gain insights into the key principles, methodologies, and tools used in the monitoring and evaluation process, enabling them to contribute to the successful implementation of transportation projects.

Objectives

- Understand the importance of monitoring and evaluation in the context of roads and bridges projects.
- Gain proficiency in using various monitoring and evaluation tools and techniques.
- Enhance skills in data collection, analysis, and interpretation specific to roads and bridges infrastructure.
- Learn how to identify and address challenges and issues that may arise during the monitoring and evaluation phases.
- Develop a comprehensive understanding of the impact of monitoring and evaluation on project success and sustainability.

Outlines

Day 1

Foundations of Monitoring and Evaluation

- Introduction to Monitoring and Evaluation M&E
- Importance of M&E in Roads and Bridges Projects
- Key Concepts and Terminologies
- Overview of M&E Frameworks
- Case Studies: Successful M&E Implementation

Day 2

Planning for Monitoring and Evaluation
